

Attention Florida Students!

Are you looking for ways to get credits faster or get to learn more?
That can be done by the use of FLVS.

What is FLVS?

FLVS is a virtual school only for Floridian residents, that allows either part-time or full- time (online school) enrollment . It's for all grades as well.

Pros of Using FLVS:

- It has wide selection of different courses, including dual enrollment and AP's.
- It has flexible scheduling and most classes can be accessed at any time of the year, except AP'S. They only open at the end and beginning of the school year due to testing reasons.
- All courses are accredited, meeting Florida's standards. You have the option between half and full credit courses.

Cons of Using FLVS:

- Easy to cheat on since it is student paced and instructors cannot catch cheating outside of AI usage.
- It can be an issue when contact instructors or support, since they do have a slur plus of students.
- It is self-pacing, so this requires students with strong self-discipline and time management.

Difference Between FLVS-FLEX and FLVS-Full:

FLVS Flex is the part time version. Meaning, you are a student of a public, private, or charter school full time, but you have one or two online classes of FLVS.

FLVS Full is the full time version. This is for online-school kids. However, when graduating from FLVS, you do get a diploma but no graduation.
