Scholarships in Technology

1. GREAT Scholarships: offers £10,000 towards one year, **postgraduate** courses at a UK university, but the scholarship only applies for specific courses over 70 universities in the UK.
Students from each country are eligible for different courses at different universities, but the scholarships are only open to students from: Bangladesh, China, Egypt, France, Ghana, Greece, India, Indonesia, Italy, Kenya, Malaysia, Mexico, Nigeria, Pakistan, Spain, Thailand, Turkey and Vietnam. Please check the website for specific details about which courses are offered at the universities offered to you.

2. Women at Microsoft Scholarship: a $5,000 (USD) scholarship awarded to high school seniors who identify as women, and who have at least a 3.0 GPA. It is open to international applicants if they wish to study in the US.

3. Generation Google Scholarship (North America): $10,000 (USD) or 5,000 CAD for those who are currently enrolled in a bachelor's program at an accredited university/college OR currently a high school senior, and intend to be enrolled or accepted in a bachelor's program in the US or Canada.

4. SMART Scholarship: funded by the US DoD, recipients receive full tuition, annual stipends, mentorship, health and book allowances, and conduct summer internships at a DoD facility before embarking on a DoD civilian career after graduation. Students must be a citizen of the USA, Australia, Canada, New Zealand or the UK, have a cumulative GPA of at least 3.0, and currently or intend to pursue a bachelor's, master's or doctorate degree.

5. Boyapati Computer Science & Mathematical Honours Scholarship: $5000 AUD will be awarded by the Mathematical Sciences Institute (MSI) to a student entering the final honours year of a bachelor's degree in either the Department of Mathematics or the Department of Computer Science at The Australian National University (ANU), and is available to domestic, international or current students. Selection criteria is based on academic merit.
